SFDR PAI Statement
AXA Investment Managers Paris SA
[LEI: 969500S4JU30ML1J3P20]
Summary

AXA Investment Managers Paris SA [LEI: 969500S4JU30ML1J3P20] considers principal adverse impacts of its investment decisions on sustainability factors. The present statement is the consolidated statement on principal adverse impacts on sustainability factors of AXA Investment Managers Paris SA.

This statement on principal adverse impacts on sustainability factors covers the reference period from 1 January to 31 December 2022.

The principle adverse impacts are described in the AXA IM Sustainable Finance Disclosure Statement (see Section II regarding AXA IM approach to consider adverse sustainability impacts, and Appendix 1 regarding consideration of PAI at both entity and product levels) and measured below. More details are available on AXA IM website: https://www.axa-im.com/important-information/sfdr

Résumé

AXA Investment Managers Paris S.A. [LEI: 969500S4JU30ML1J3P20] considère les principaux impacts négatifs de ses décisions d'investissement sur les facteurs de durabilité. La présente déclaration est la déclaration consolidée sur les principaux effets négatifs des facteurs de durabilité d'AXA Funds Management SA.

La présente déclaration relative aux principales incidences négatives sur les facteurs de durabilité couvre la période de référence allant du 1er janvier au 31 décembre 2022.

Les principaux impacts négatifs sont décrits dans la Déclaration de Finance Durable d'AXA IM (voir la Section II concernant l'approche d'AXA IM pour prendre en compte les impacts négatifs sur le développement durable, et l'Annexe 1 concernant la prise en compte du PAI au niveau de l'entité et du produit) et mesurés ci-dessous. La Déclaration de Finance Durable d'AXA IM est disponible sur le site Internet d'AXA IM : https://www.axa-im.com/important-information/sfdr
Description of the principal adverse impacts on sustainability factors

Methodological approach

Figures disclosed in this report can either be based on “all investments” as defined by the regulation, or on “eligible assets”. For the purpose of this report, eligible assets refers to all investments (i.e., investee companies, or sovereign and supranational, or real estate assets, depending on the PAI), excluding derivatives, cash and cash equivalent. In the event of insufficient data and/or low data quality for a specific investment, such investment has been excluded from the basis of calculation for the relevant indicator. Such exclusion is reflected and disclosed through the coverage ratio for the relevant indicator. The coverage disclosed in this report reflects the proportion of eligible assets for which data is available and provided in this report.

<table>
<thead>
<tr>
<th>Reported PAI indicators based on “all investments”, excluding “eligible assets” with no available data</th>
<th>Reported PAI indicators based on “eligible assets”, excluding “eligible assets” with no available data</th>
</tr>
</thead>
<tbody>
<tr>
<td>PAI 2, 4, 7, 8, 9, 10, 11, 14, 16, and additional social PAI 15</td>
<td>PAI 1, 3, 5, 6, 12, 13 and 15, and additional environmental PAI 6</td>
</tr>
</tbody>
</table>

Data sources

For PAI computation, we rely on S&P Global Trucost for traditional asset classes (i.e., fixed income and listed equity), on FinDox for leveraged loans, and on S&P Global Trucost, MSCI Carbon Delta, and Bloomberg for other alternative asset classes (e.g., asset-backed securities, insurance-linked securities, and RegCap) – unless specified differently in the “Explanation” column.

<td>n/a</td>
<td>Data coverage on eligible assets: 78%</td>
<td>AXA IM is committed to achieving net zero emissions across our portfolios by 2050 or sooner, as well as playing a key role in helping our clients better understand climate change and how it may impact their portfolios and supporting them in adapting their investment decisions accordingly. AXA IM published its first Net Zero target in October 2021, as part of the first NZAMI progress report, committing to apply net zero approaches on 15% of its AUMs. This target was subsequently revised in April 2022, to cover 65% of the AuM. Accordingly, we have developed a net zero framework on applied to traditional asset classes and real estate assets which follows industry standards considering internal and external information to determine the net zero profile of companies. Overall, for all traditional asset classes, AXA IM monitors on an annual basis at minimum the GHG emissions of its worldwide holdings, as well as a selection of other climate-related indicators depending on the asset class. Over the years, we also have implemented: - exclusion criteria on the energy sector as part of our Climate Risks policy; - specific engagement on climate transition; - specific low-carbon, carbon transition and carbon offset strategies at fund-level. For more details, see Appendix 1 of AXA IM Sustainable Finance Disclosure Statement related to consideration of PAI at both entity and product levels: AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website (see “SFDR entity disclosure”): <a href="https://www.axa-im.com/important-information/sfdr">https://www.axa-im.com/important-information/sfdr</a></td>

**Data coverage on eligible assets:**
- Sector A: 19%
- Sector B: 94%
- Sector C: 94%
- Sector D: 99% (as noted above, PAI data was primarily sourced via a data provider. However, for NACE sector D, it relied on data directly obtained from investee companies for one investee company)
- Sector E: 89%
- Sector F: 80%
- Sector G: 89%
- Sector H: 97%
- Sector L: 97%

Data coverage on eligible is here the coverage on each NACE sector.

**AXA IM have strengthened its strategy to better integrate the challenges relating to biodiversity protection in our investment process, fundamental research and our engagement strategy.**

AXA IM have strengthened its strategy to better integrate the challenges relating to biodiversity protection in our investment process, fundamental research and our engagement strategy. We now report on our biodiversity footprint which represents an aggregation of various PAI, i.e., the pressures on ecosystems generated by human activities, among them: water and air pollution; land artificialization, exploitation and pollution; and climate change.

In the past years, we also have implemented:
- exclusion criteria on sector related to deforestation as part of our Ecosystem protection & Deforestation policy;
- specific engagement on biodiversity;
- specific biodiversity, plastic & waste transition at fund-level.

For more details, see Appendix 1 of AXA IM Sustainable Finance Disclosure Statement related to consideration of PAI at both entity and product levels. AXA IM Sustainable Finance Disclosure.
### Waste

| Waste | 9. Hazardous waste and radioactive waste ratio | 5.72 | n/a | **Data coverage on eligible assets:** 39% Reported impacts are still pending methodological harmonization across third-party data providers as current methodologies to account for PAI vary depending on the providers.

---

### Indicators for social and employee, respect for human rights, anti-corruption and anti-bribery matters

| Social and employee matters | 10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | 0.07 | n/a | **Data coverage on eligible assets:** 90% Reported data are based on data provided by Sustainalytics as for companies assessed as being “non-compliant” with the UNGC, OECD guidelines for MNE, ILO Conventions or UNGP for Business and Human Rights, completed by internal AXA IM assessment which applies to all AXA IM Paris assets; as part for AXA IM ESG Standards policy, AXA IM may override Sustainalytics’s assessment regarding violations of international norms and standards, based on a qualitative analysis.

|  | 11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises | 3.12 | n/a | **Data coverage on eligible assets:** 77%

|  | 12. Unadjusted gender pay gap | 14.87 | n/a | **Data coverage on eligible assets:** 68% AXA IM has included gender diversity criteria in its voting policy since 2020. In line with the French Rixain Law, we have committed to improving the representation of women among those making investment decisions from 20% to 25% by 2030.

|  | 13. Board gender diversity | 36 | n/a | **Data coverage on eligible assets:** 70%

---

4 AXA IM ESG Standards policy apply to i) all AXA IM ESG and Responsible Investment (RI) open-ended funds, which include all funds classified as Art.8 or Art.9 under SFDR and ii) on an opt-in basis, any other dedicated fund and mandate under AXA IM management.
diversity target for OECD countries, and with targeted companies in emerging markets on gender diversity issues.

For more details, see Appendix 1 of AXA IM Sustainable Finance Disclosure Statement related to consideration of PAI at both entity and product levels. AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website (see “SFDR entity disclosure“): [https://www.axa-im.com/important-information/sfdr](https://www.axa-im.com/important-information/sfdr)

As part of our Controversial weapons policy, we avoid investing in controversial weapons regulated by international conventions, i.e., anti-personnel landmines, cluster munitions, chemical, biological and nuclear weapons.

For more details, see Appendix 1 of AXA IM Sustainable Finance Disclosure Statement related to consideration of PAI at both entity and product levels. AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website (see “SFDR entity disclosure“): [https://www.axa-im.com/important-information/sfdr](https://www.axa-im.com/important-information/sfdr)

⁶ Please note that these indicators only apply to corporate assets, representing 59% (£160bn) of the AuM managed by AXA Investment Managers Paris as at 31 December 2022: 51% from AXA IM Core (traditional asset classes), 8% from AXA IM Alts (Alternative credit, Natural capital & Impact).

⁷ Idem.
Description of policies to identify and prioritise principal adverse impacts on sustainability factors

Policies related to actions taken, and actions planned and targets set for the next reference period, and described in Appendix 1 of AXA IM Sustainable Finance Disclosure Statement related to consideration of PAI at both entity and product levels, have been approved the relevant governing bodies in a continuous manner in the previous years. The relevant governing bodies are described in sub-section "Governance & committees" of section I regarding AXA IM approach to integrate sustainability risks.

Methodologies and data sources to select, identify and assess the PAI are mentioned in sub-section 1. "Identification and prioritisation of PAI" of Section II of AXA IM Sustainable Finance Disclosure Statement. AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website: https://www.axa-im.com/important-information/sfdr

To report on margin of errors within the methodologies, we report in the present statement the data coverage for each PAI, with subsequent explanations regarding data quality in footnotes when relevant.

Engagement policies

AXA IM has adopted a global engagement policy where we seek to improve issuers’ practices with a specific objective in mind, on behalf of our equity and bond holdings. AXA IM’s Engagement Policy describes AXA IM engagement process with corporates and governments, individually and as part of collaborative initiatives. The policy is available on AXA IM’s website: https://www.axa-im.com/championing-sustainability/stewardship-and-engagement

As for our engagement with corporates as follows:

1. Selection of priorities: We engage companies across our ESG thematics in a constructive manner with identified and achievable goals. We challenge companies on their strategy and risks, financial and non-financial performance, and their commitments to strong environmental, social, and governance philosophies;

2. Engagement priorities: sustainability dialogue (dialogue conducted with investee companies around their sustainability practices) is key in establishing and developing a constructive relationship with the company, as well as gaining insights its policies and practices. In the case of engagement with objectives, which seek to influence change at investee companies, we define targeted objectives related to the key ESG with clear targets, and the timeframe we consider appropriate to see progress depending on the nature of the objectives. This engagement policy, combined with our Corporate Governance and Voting policy, allows AXA IM to consider adverse impacts;

3. Governance of the engagement process: For engagement with objectives, we share these objectives with investee companies at the outset of the engagement, and systematically track and record the progress of engagement as described below. While our belief is that long-running confidential and constructive discussions
based on trust is often the most effective way to create change over time, we also value transparency and may communicate externally on our engagement activities in selected cases;

4. Tracking, escalation and conclusion of the engagement: Each and every time an interaction with a company is logged, an engagement report is uploaded and made visible to all AXA IM investment platforms. Escalation of the discussion through other means and/or at other levels of the hierarchy are options we can utilise in order to progress on our engagement asks. An escalation strategy is therefore determined for every engagement activity.

More details on our engagement policy are available in sub-section 3 "Engagement policy" on Section II regarding AXA IM approach to consider adverse sustainability impacts of AXA IM Sustainable Finance Disclosure Statement. AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website: https://www.axa-im.com/important-information/sfdr

References to international standards
AXA IM seeks to comply and adhere to various principles, standards, and codes, considered best practices in the market, which govern our policies and practices. AXA IM is signatory of the following codes:

- Principles for Responsible Investment, since May 2007;
- Japanese Stewardship code, since 2014;
- UK Stewardship code, since 2010 (and of the revised code in 2020);

As part of the AXA Group, which is signatory of the United Nations Global Compact, AXA IM follows these principles as part of its RI policy.

More details on our adherence to responsible business codes & internationally recognised standards in the dedicated sub-section on Section II regarding AXA IM approach to consider adverse sustainability impacts of AXA IM Sustainable Finance Disclosure Statement. AXA IM Sustainable Finance Disclosure Statement is available on AXA IM website: https://www.axa-im.com/important-information/sfdr

Historical comparison
Historical comparison against the previous reported periods will be made starting 2024.
IMPORTANT NOTICE

Reporting on certain PAI indicators may be limited, notably in terms of coverage across the asset classes we manage or may reflect reporting periods prior to 2022 due to lack of data availability for 2022. Not all companies and counterparties currently report on all sustainability factors and the report relies on the data available at the moment, disclosed on an annual basis, which might be sourced through third party data providers. Therefore, the data contained herein may prove to be incorrect or incomplete and possible data discrepancies may occur (in particular regarding data provided by third parties). AXA Investment Managers Paris may change its third-party data provider at any time and at its own discretion, which may also result in changes in relation to the data and or methodologies used for the same instruments or investments in future reports.

For certain indicators, AXA Investment Managers Paris has made its best effort to request and collect such data from investee companies and/or third-party data provider but was unable to measure or estimate with sufficient comfort the PAI indicator due to (i) a lack of homogenous data disclosure from the investee companies, and/or (ii) poor quality of the data provided by third party data providers and/or unavailability of relevant proxy data from third party data providers. As third-party data providers methodologies will improve in the coming years, AXA Investment Managers Paris intends to reassess data quality to be able to report on such PAIs in the future.

This report and the information included herein were prepared on the basis of data made available to AXA IM as of the date of this report. Unless stated otherwise in this report, this report and the information included herein are current only as of such date. This report refers to certain non-financial metrics and key performance indicators (KPIs), as well as other non-financial data, all of which are subject to measurement uncertainties resulting from limitations inherent in the nature and the methods used to determine them. Non-financial metrics used herein generally have no standardized meaning and may not be comparable to similarly labelled measures used by other companies. In addition, AXA IM reserves the right to amend, adjust and/or restate the data presented in this report, from time to time, without notice and without explanation. The data presented or included in this report may be further updated, amended, revised or discontinued in subsequent publications of AXA IM depending on, among other things, the availability, fairness, adequacy, accuracy, reasonableness or completeness of the information, or changes in applicable circumstances, including changes in applicable laws and regulations. The measurement techniques used for determining non-financial metrics and data may involve complex modelling processes and research. The use of different measurement techniques can also result in materially different measurements, while the precision of these techniques may vary. In addition, the determination and use of non-financial metrics and data remains subject to the limited availability of relevant data: such data is not yet systematically disclosed by issuers, or, when disclosed by issuers or collected from third-party data providers, it may be incorrect, incomplete or follow various reporting methodologies. Furthermore, most of the information used to determine non-financial metrics or factors is based on historical data, which may not be complete or accurate or may not fully reflect the future non-financial performance or risks of the underlying investments. While the methodologies for non-financial KPIs applied by AXA IM are regularly updated to take into account changes in the availability of data or methodologies used by investee companies and/or borrowers to disclose non-financial information, there is no assurance that such methodologies are or will be successful at capturing all relevant non-financial factors. This report may include or refer to information obtained from, or established on the basis of, various third-party sources. Such information may not have been reviewed by AXA IM, and AXA IM does not approve or endorse such information by inclusion thereof or reference thereto. In addition, such third-party information may not have been independently verified. Accordingly, AXA IM does not guarantee the fairness, adequacy, accuracy, reasonableness or completeness of such information, and no representation, warranty or undertaking, express or implied, is made or responsibility or liability is accepted by AXA IM as to the fairness, adequacy, accuracy, reasonableness or completeness of such information, and AXA IM shall not be obliged to update or revise such information.

This document is for informational purposes only pursuant to Article 3 and 4 of the Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (as amended, the “SFDR”) and in application of the SFDR Delegated Regulation (EU) 2022/1288, and does not constitute investment research or financial analysis relating to transactions in financial instruments as per MIF Directive (2014/65/EU), nor does it constitute on the part of AXA Investment Managers or its affiliated companies an offer to buy or sell any investments, products or services, and should not be considered as solicitation or investment, legal or tax advice, a recommendation for an investment strategy or a personalized recommendation to buy or sell securities.

Issued by AXA Investment Managers Paris SA, headquartered Tour Majunga – La Défense 9 – 6, place de la Pyramide – 92800 Puteaux. AXA Investment Managers Paris is a portfolio management company with AMF approval n° GP 92008 dated 7 April 1992, and a public limited company (S.A.) with capital of €1,421,906, entered in Nanterre business register (RCS) under number 353 534 506.
